

Creating Culture Change in Long-Term Care

10 Strategic Recipes

- Develop a person centred organization at a strategic level
- Modernize continuing care to embrace real quality dementia care.
- Identify what real person centred practice looks, sounds and, feels like.
- Seed the foundations of person centred leadership.
- Measure cultures of care and people's lived experience.
- Outline the key indicators between 6 'levels' of care.
- Model and lead relationship focussed care from the front.
- Turn Dementia Care Matters INSPIRING 50 Point Checklist into measured steps.
- Monitor 'hard' data evidence to demonstrate progress.
- Replicate the findings from over 60 Butterfly Care Home Projects in the UK and Ireland who have implemented Dementia Care Matters Household Model.
