Notes

** **Basic Daily Care Fee** is set by the Australian Government at 85% of the full Age Pension and is reviewed twice a year (March and September), so the rate may change over time.

** **RAD/RAC retention** is calculated on the daily balance at 2% per annum and deducted daily for up to 5 years from the date the accommodation deposit is first paid.

** **Non-clinical care contribution / Hotelling contribution** is determined based on the resident's income and assets assessed by Centrelink. This amount may change if financial circumstances change.

** **DAP/DAC rates** are set by the government and reviewed twice yearly (March and September), so the daily amount may change over time.

** **For DVA clients** please complete the Income and Asset Assessment (SA369) instead.

If you have any questions regarding Income and Assessment, please do not hesitate to contact Centrelink or look for an independent financial advisor.
